

The Evansville Kennel Club is proud to present the seminar,  
“The ABC’s of Dog Breeding”  
By Claudia Waller Orlandi, PhD

New Year, New Breeding Resolution?

What do you want out of your next litter? Spend a little time at this seminar and walk away with a plan of action!

The **ABC’s of Dog Breeding** teaches a practical, step-by-step approach to the art and the science of breeding. Seven key tools are covered in this seminar and workshop: basic genetics, breeding systems, pedigree analysis, dam and sire selection, canine anatomy, kennel blindness, and genetic defects.

In addition, Dr. Orlandi will lead a hands-on workshop of how to estimate forequarter angulation in the dog. Demonstration dogs will be available for this part of the seminar.

The seminar price includes Dr. Orlandi’s book, the **ABC’s of Dog Breeding** Home Study Program. Workbook exercises are part of the program and any breeder who completes the written exercises and sends them to the American Kennel Club will receive an AKC Certificate of Completion.

There is both breadth and depth to this seminar. Beginner and experienced breeders will come away with practical information that can easily be applied to any dog breeding program!

Dr. Orlandi is a long time, distinguished breeder of over 100 champion Basset Hounds under the Topsfield prefix. Topsfield Bassets have garnered over 100 All-Breed Bests-in-Show, 9 Pedigree Awards and 4 Hound Show Dog of the Year awards. Ch Topsfield Bumper Cars was the #1 (2001) and #2 (2002) All Breed Hound and is the Top Group Winning Basset of all time with 250 group firsts. Topsfield has also produced the top producing Basset Hound dam of all time as well as the top winning Basset dam. Dr. Orlandi has been active on several Basset Hound Club of America committees and currently chairs Member Education. She judges Basset Hounds, Dachshunds, PBGV’s and Junior Showmanship. She is the 2009 AKC Hound Group Breeder of the Year and a 2009 **Dogs In Review** Outstanding Breeder nominee.
